

# 2003 Zeagle Product Specifications

## Zeagle Twin Tank Attachments:

## Alternate Bladder Assemblies:

Twin cylinder sets may be mounted to any twin capable Zeagle BC by using our stainless steel tank bands, the Twin Cylinder Mounting Plates, and a stainless bolt kit. The full backplate below may be used in place of the Twin Cylinder Mounting Plates.

### Redundant and high lift bladder assemblies:

Zeagle Buoyancy systems are designed with modular, interchangeable components. Zeagle BCs can use a variety of bladder assemblies. These include redundant and high lift bladders. The bladder assemblies below are not standard on any Zeagle BC, but are (excepting the Manta Wing, which is for backplate use only) compatible with any twin capable system.

Dual redundant Bladder Assemblies inside a single outer cover:  
"Big Bertha" (Dual 85 lb. bladder) 7724  
"Little Bertha" (Dual 55 lb. bladder) 7725

## Zeagle Backplates:

**Zeagle offers metal backplates in both stainless steel and titanium.**

Zeagle's backplates will mount to any of our twin capable BC's, or they may be used with any

Manta Wing for Backplate use:  
(Single 50 lb. bladder) 7014DR

Zeagle bladder assembly and the standard webbing harness (#519-SH01).

- Three position upper mounting holes with lower mounting slot makes alignment with your twin set easy.
- Easily attach and remove **any** Zeagle bladder assembly with included screw fasteners.
